FORWARD-LOOKING STATEMENTS

All statements in this presentation that are not statements of historical fact are "forward-looking statements" within the meaning of the U.S. Private Securities Litigation Reform Act of 1995. Forward-looking statements include statements that address activities, events or developments that the Partnership expects, projects, believes or anticipates will or may occur in the future, particularly in relation to our operations, cash flows, financial position, liquidity and cash available for distributions, and the impact of changes to cash distributions on the Partnership's business and growth prospects, plans, strategies and changes and trends in our business and the markets in which we operate. We caution that these forward-looking statements represent our estimates and assumptions only as of the date of this presentation, about factors that are beyond our ability to control or predict, and are not intended to give any assurance as to future results. Any of these factors or a combination of these factors could materially affect future results of operations and the ultimate accuracy of the forward-looking statements. Accordingly, you should not unduly rely on any forward-looking statements.

Factors that might cause future results and outcomes to differ include, but are not limited to, the following:

- general LNG shipping market conditions and trends, including spot and multi-year charter rates, ship values, factors affecting supply and demand of LNG and LNG shipping, including geopolitical events, technological advancements and opportunities for the profitable operations of LNG carriers;
- fluctuations in charter hire rates, vessel utilization and vessel values;
- our ability to secure new multi-year charters at economically attractive rates;
- our ability to maximize the use of our vessels, including the re-deployment or disposition of vessels which are not operating under multi-year charters, including the risk that certain of our vessels may no longer have the latest technology at such time which may impact our ability to secure employment for such vessels as well as the rate at which we can charter such vessels;
- changes in our operating expenses, including crew wages, maintenance, dry-docking and insurance costs and bunker prices;
- number of off-hire days and dry-docking requirements, including our ability to complete scheduled dry-dockings on time and within budget;
- planned capital expenditures and availability of capital resources to fund capital expenditures;
- disruption to the LNG, LNG shipping and financial markets caused by the global shutdown as a result of the COVID-19 pandemic;
- business disruptions resulting from measures taken to reduce the spread of COVID-19, including possible delays due to the quarantine of vessels and crew, as well as government-imposed shutdowns;
- fluctuations in prices for crude oil, petroleum products and natural gas, including LNG;
- fluctuations in exchange rates, especially the U.S. dollar and the Euro;
- our ability to expand our portfolio by acquiring vessels through our drop-down pipeline with GasLog or by acquiring other assets from third parties;
- our ability to leverage GasLog's relationships and reputation in the shipping industry;
- the ability of GasLog to maintain long-term relationships with major energy companies and major LNG producers, marketers and consumers;
- GasLog's relationships with its employees and ship crews, its ability to retain key employees and provide services to us, and the availability of skilled labor, ship crews and management;
- changes in the ownership of our charterers;
- our customers' performance of their obligations under our time charters and other contracts;
- our future operating performance, financial condition, liquidity and cash available for distributions;
- our distribution policy and our ability to make cash distributions on our units or the impact of cash distribution reductions on our financial position;
- our ability to obtain debt and equity financing on acceptable terms to fund capital expenditures, acquisitions and other corporate activities, funding by banks of their financial commitments, funding by GasLog of the revolving credit facility and our ability to meet our restrictive covenants and other obligations under our credit facilities;
- future, pending or recent acquisitions of ships or other assets, business strategy, areas of possible expansion and expected capital spending;
- risks inherent in ship operation, including the discharge of pollutants;
- the impact on us and the shipping industry of environmental concerns, including climate change;
- any malfunction or disruption of information technology systems and networks that our operations rely on or any impact of a possible cybersecurity event;
- the expected cost of and our ability to comply with environmental and regulatory requirements, including with respect to emissions of air pollutants and greenhouse gases, as well as future changes in such requirements or other actions taken by regulatory authorities, governmental organizations, classification societies and standards imposed by our charterers applicable to our business;
- potential disruption of shipping routes due to accidents, diseases, pandemics, political events, piracy or acts by terrorists;
- potential liability from future litigation; and
- other risks and uncertainties described in the Partnership's Annual Report on Form 20-F filed with the SEC on March 2, 2021, available at http://www.sec.gov.

We undertake no obligation to update or revise any forward-looking statements contained in this presentation, whether as a result of new information, future events, a change in our views or expectations or otherwise, except as required by applicable law. New factors emerge from time to time, and it is not possible for us to predict all these factors. Further, we cannot assess the impact of each such factor on our business or the extent to which any factor, or combination of factors, may cause actual results to be materially different from those contained in any forward-looking statement. The declaration and payment of distributions are at all times subject to the discretion of our board of directors and will depend on, amongst other things, risks and uncertainties described above, restrictions in our credit facilities, the provisions of Marshall Islands law and such other factors as our board of directors may deem relevant.

Q1 2021 REVIEW AND OUTLOOK

PAUL WOGAN, CHIEF EXECUTIVE OFFICER, GASLOG PARTNERS

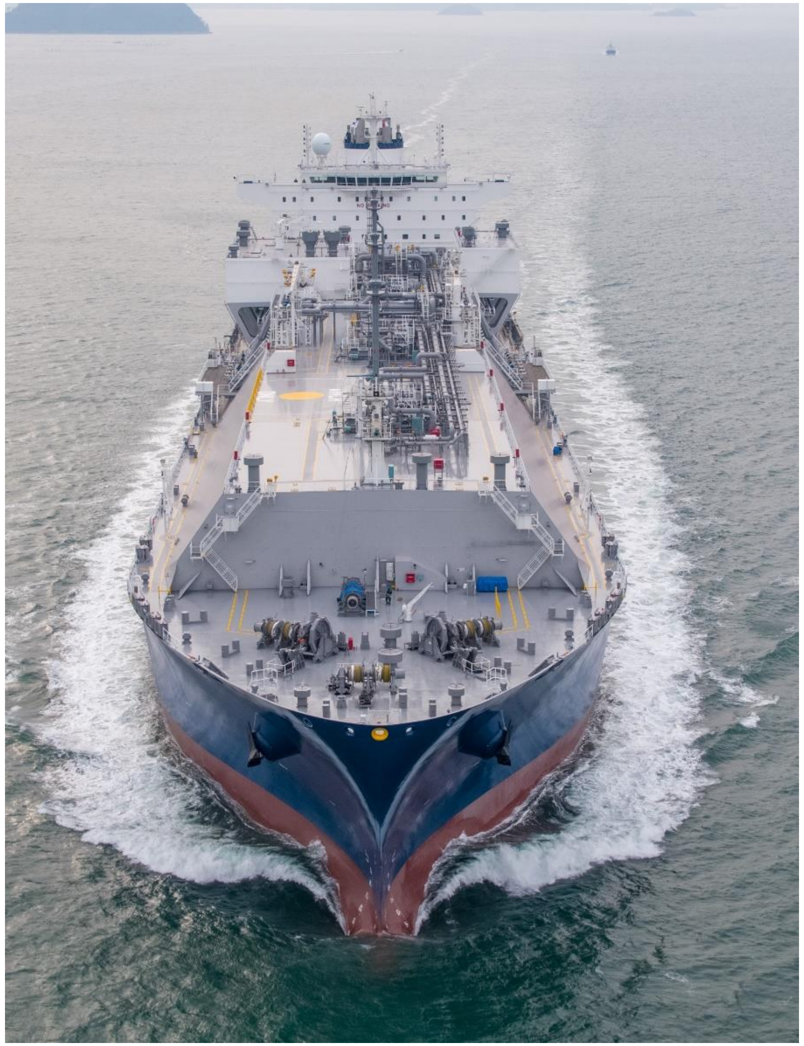
GASLOG PARTNERS Q1 2021 HIGHLIGHTS

1 **DELIVERING FOR OUR CUSTOMERS**
- Fleet uptime of 100% in Q1 2021
- 72 port calls and c.2.2 million tons of LNG delivered in Q1 2021

2 **OPERATING ENVIRONMENT REMAINS CHALLENGING**
- Crew changes remain difficult, particularly in Asia
- Unit operating expenses averaged $14,132 per day in Q1 2021

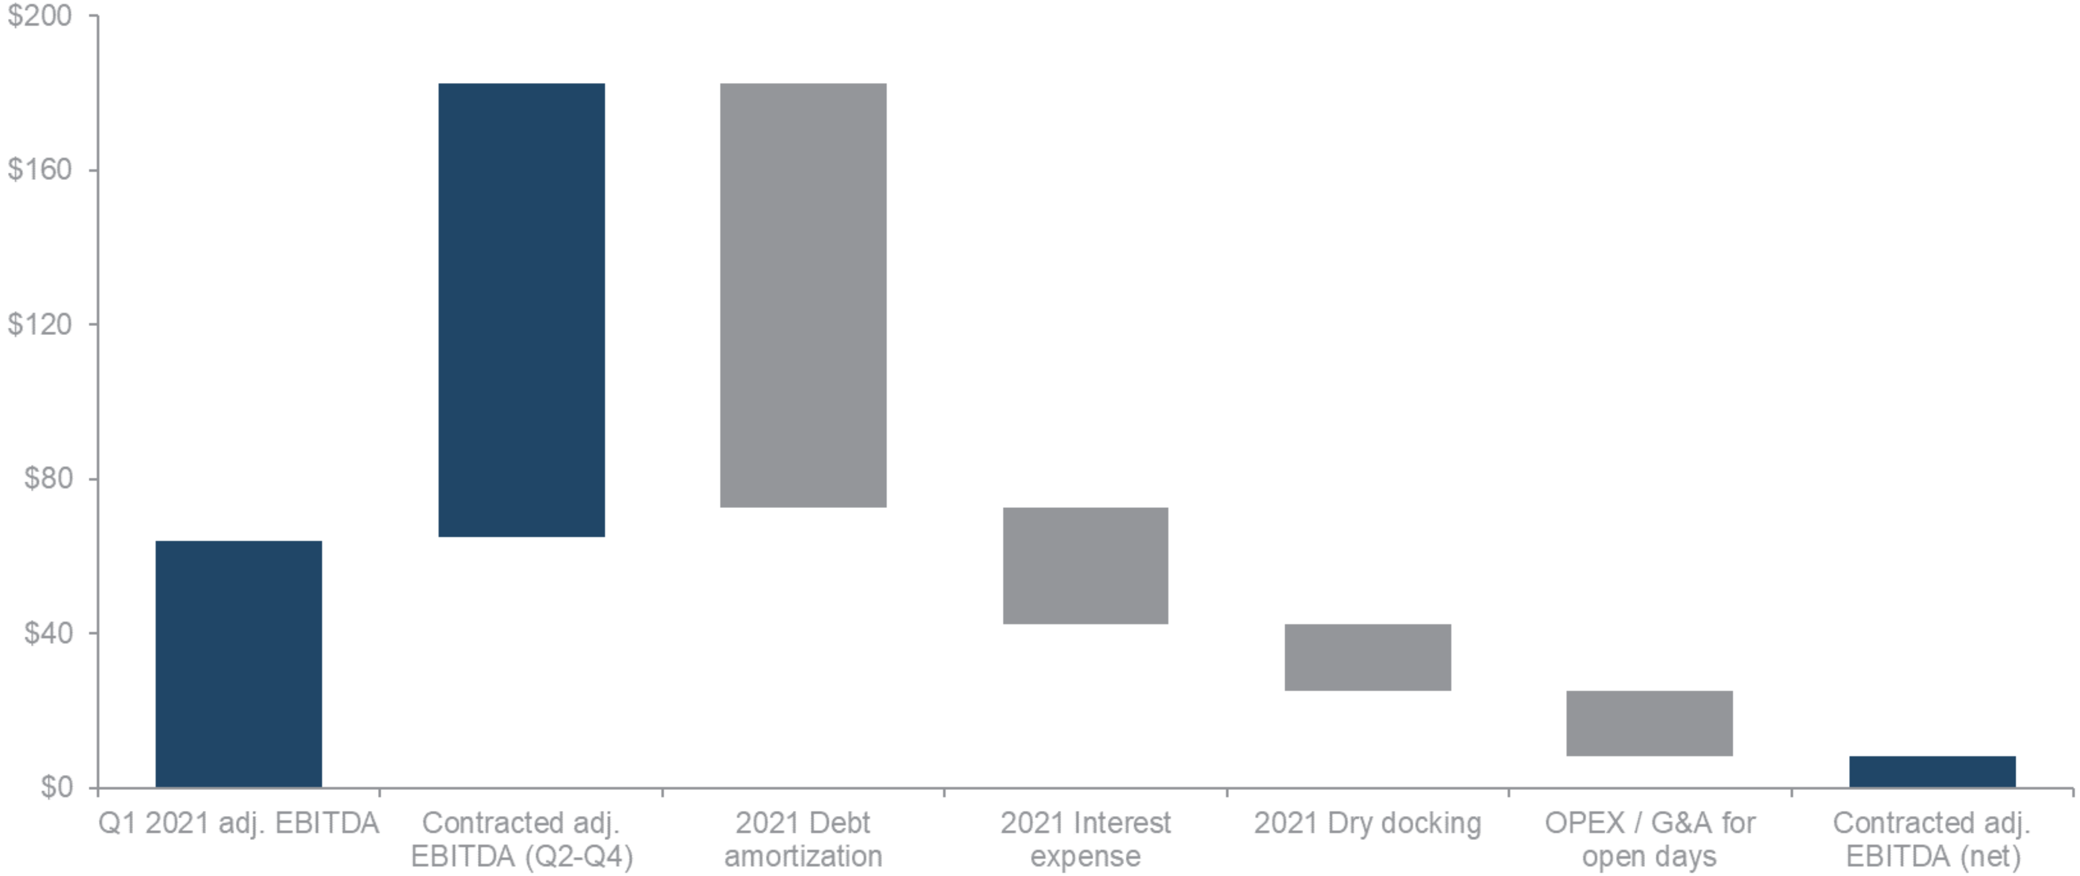
3 **SOLID FINANCIAL PERFORMANCE ENABLED BY COST CONTROL**
- Adjusted EBITDA of c.$64 million, in line with Q1 2020
- Adjusted EPU of $0.50 per unit, up 19% year-over-year

4 **EXECUTING ON OUR STRATEGY TO DELEVERAGE**
- Retired c.$36 million of debt in Q1 2021
- Improved charter coverage to 75% for remainder of 2021
- Declared $0.01 per unit distribution for Q1 2021, unchanged from Q4 2020



CASH GENERATED IN Q1, ALONG WITH 75% CHARTER COVERAGE THROUGH YEAR END MORE THAN COVERS OUR DEBT SERVICE OBLIGATIONS FOR 2021

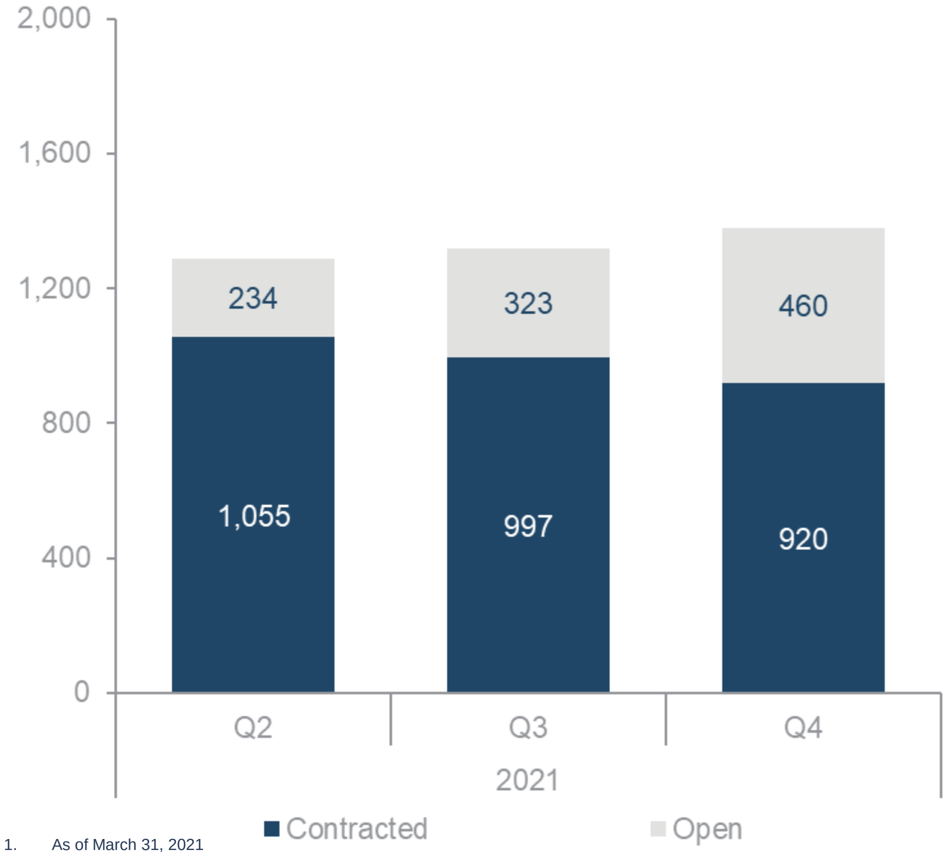
2021 GASLOG PARTNERS COMMITTED CASH INFLOWS AND OUTFLOWS ($M)(1,2,3,4.5)



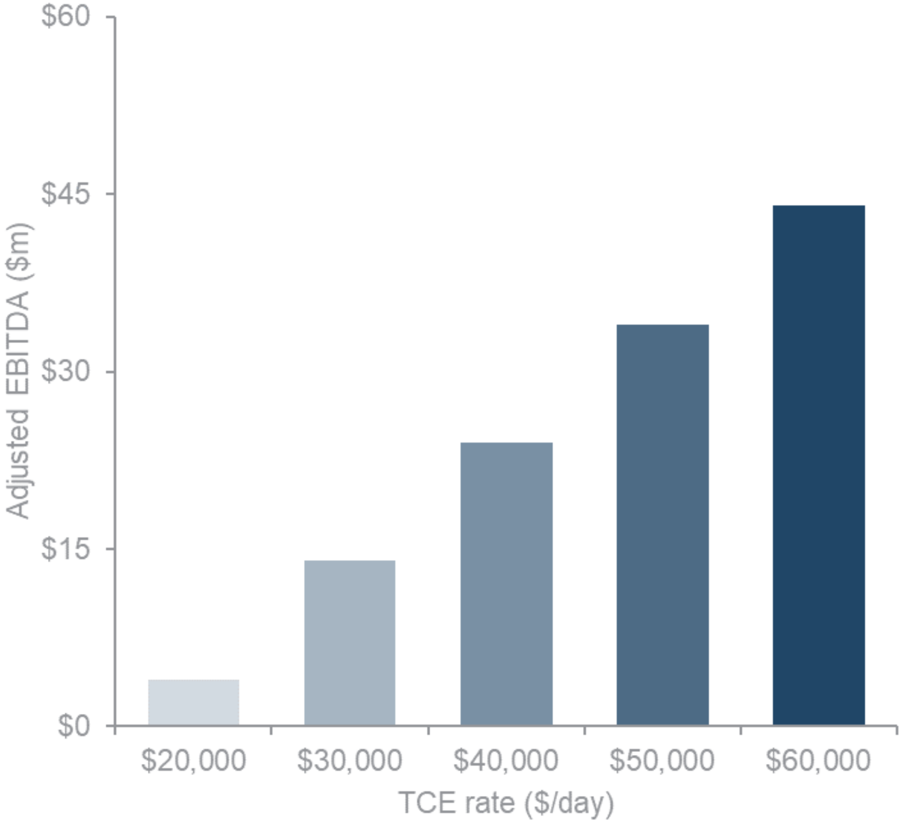
1. Adjusted EBITDA is a non-GAAP financial measures and should not be used in isolation or as a substitute for the Partnership's financial results presented in accordance with IFRS. For the definition and reconciliation of these measures to the most directly comparable financial measures calculated and presented in accordance with IFRS, please refer to the Appendix to these slides.
2. Contracted adjusted EBITDA as of March 31, 2021 and does not include any contribution from charters signed thus far in Q2.
3. Contracted adjusted EBITDA assumes daily operating expenses average $14,132 per day and G&A averages approximately $2,275 per day, equivalent to its average during Q1 2021 as well as 2,972 fixed days in Q2-Q4 2021 as of March 31, 2021.
4. Interest expense assumed to be the average debt balance in 2021 of approximately $1.25 billion based on our scheduled amortization, with an average cost of debt of approximately 2.4%, equal to the average interest rate during the 3-month period ended March 31, 2021.
5. Operating and G&A expenses for open days assume daily operating expenses average $14,132 per day and G&A averages approximately $2,275 per day, equivalent to their average during Q1 2021 as well as 1,071 fixed days in Q2-Q4 as of March 31, 2021.

A RECOVERY IN LNG SHIPPING SPOT RATES TO MATERIALLY BENEFIT GASLOG PARTNERS

2021 OPEN DAYS BY QUARTER[(1)]



2021 ADJ. EBITDA SENSITIVITY ($M)[(2)]



1. As of March 31, 2021
2. Assumes daily operating expenses average $14,132 per day and G&A averages approximately $2,275 per day, equivalent to the average over Q1 2021 as well as 1017 unfixed days in 2021 as of March 31, 2021

Each $10,000 per day increase in TCE generates approximately $10 million of incremental EBITDA in 2021

GASLOG PARTNERS LP SUMMARY AND OUTLOOK

1	Cost control and strong winter market in 2020/21 delivered solid financial performance for Q1 2021
2	Continued focus on cost optimization and reducing our fleet’s cash breakeven
3	Q1 cash flows plus contracted cash flows for the balance of 2021 more than cover our debt service this year
4	Capital allocation for 2021 prioritizes debt repayment and improving free cash flow capacity over time
5	Positioning longer term for opportunistic fleet growth and renewal through vessel acquisitions and sales
6	LNG demand growth projected for decades to come

NON-GAAP FINANCIAL MEASURES AND RECONCILIATIONS

Non-GAAP Financial Measures:

EBITDA is defined as earnings before financial income and costs, gain/loss on derivatives, taxes, depreciation and amortization. Adjusted EBITDA is defined as EBITDA before impairment loss on vessels and restructuring costs. Adjusted Profit represents earnings before (a) non-cash gain/loss on derivatives that includes unrealized gain/loss on derivatives held for trading, (b) write-off and accelerated amortization of unamortized loan fees, (c) impairment loss on vessels and (d) restructuring costs. Adjusted EPU, represents earnings attributable to unitholders before (a) non-cash gain/loss on derivatives that includes unrealized gain/loss on derivatives held for trading, (b) write-off and accelerated amortization of unamortized loan fees, (c) impairment loss on vessels and (d) restructuring costs. EBITDA, Adjusted EBITDA, Adjusted Profit and Adjusted EPU, which are non-GAAP financial measures, are used as supplemental financial measures by management and external users of financial statements, such as investors, to assess our financial and operating performance. The Partnership believes that these non-GAAP financial measures assist our management and investors by increasing the comparability of our performance from period to period. The Partnership believes that including EBITDA, Adjusted EBITDA, Adjusted Profit and Adjusted EPU assists our management and investors in (i) understanding and analyzing the results of our operating and business performance, (ii) selecting between investing in us and other investment alternatives and (iii) monitoring our ongoing financial and operational strength in assessing whether to purchase and/or to continue to hold our common units. This increased comparability is achieved by excluding the potentially disparate effects between periods of, in the case of EBITDA and Adjusted EBITDA, financial costs, gain/loss on derivatives, taxes, depreciation and amortization; in the case of Adjusted EBITDA, impairment loss on vessels and restructuring costs and, in the case of Adjusted Profit and Adjusted EPU, non-cash gain/loss on derivatives, write-off and accelerated amortization of unamortized loan fees, impairment loss on vessels and restructuring costs, which items are affected by various and possibly changing financing methods, financial market conditions, general shipping market conditions, capital structure and historical cost basis and which items may significantly affect results of operations between periods. Restructuring costs are excluded from Adjusted EBITDA, Adjusted Profit and Adjusted EPU because restructuring costs represent charges reflecting specific actions taken by management to improve the Partnership's future profitability and therefore are not considered representative of the underlying operations of the Partnership. Impairment loss is excluded from Adjusted EBITDA, Adjusted Profit and Adjusted EPU because impairment loss on vessels represents the excess of their carrying amount over the amount that is expected to be recovered from them in the future and therefore is not considered representative of the underlying operations of the Partnership.

EBITDA, Adjusted EBITDA, Adjusted Profit and Adjusted EPU have limitations as analytical tools and should not be considered as alternatives to, or as substitutes for, or superior to, profit, profit from operations, earnings per unit or any other measure of operating performance presented in accordance with IFRS. Some of these limitations include the fact that they do not reflect (i) our cash expenditures or future requirements for capital expenditures or contractual commitments, (ii) changes in, or cash requirements for, our working capital needs and (iii) the cash requirements necessary to service interest or principal payments on our debt. Although depreciation and amortization are non-cash charges, the assets being depreciated and amortized will often have to be replaced in the future and EBITDA and Adjusted EBITDA do not reflect any cash requirements for such replacements. EBITDA, Adjusted EBITDA, Adjusted Profit and Adjusted EPU are not adjusted for all non-cash income or expense items that are reflected in our statement of cash flows and other companies in our industry may calculate these measures differently to how we do, limiting their usefulness as comparative measures. EBITDA, Adjusted EBITDA, Adjusted Profit and Adjusted EPU exclude some, but not all, items that affect profit or loss and these measures may vary among other companies. Therefore, EBITDA, Adjusted EBITDA, Adjusted Profit and Adjusted EPU as presented herein may not be comparable to similarly titled measures of other companies. The following tables reconcile EBITDA, Adjusted EBITDA, Adjusted Profit and Adjusted EPU to Profit, the most directly comparable IFRS financial measure, for the periods presented.

In evaluating EBITDA, Adjusted EBITDA, Adjusted Profit and Adjusted EPU you should be aware that in the future we may incur expenses that are the same as or similar to some of the adjustments in this presentation. Our presentation of EBITDA, Adjusted EBITDA, Adjusted Profit and Adjusted EPU should not be construed as an inference that our future results will be unaffected by the excluded items.

Reconciliation of Profit to EBITDA and Adjusted EBITDA:

(Amounts expressed in thousands of U.S. Dollars)

	For the three months ended	
	March 31,2020	March 31,2021
