

QUALITY POLICY

GasLog LNG Services Ltd., as a Ship Management Company, is committed to providing quality services to our clients and to be responsive to their needs.

It has a commitment to comply with clients' requirements and to work towards continual improvement of the quality management system. In achieving continual improvement consideration will be given to the following quality objectives.

- Reviewing the current and future client base
- Establishing regular management reviews and implementing findings within the quality management system.
- Soliciting client's comments to determine client satisfaction.
- Determining the effectiveness of the quality management system through internal auditing and assessment.
- Establishing criteria through which the standard of the quality management system can be evaluated and opportunities for improvement identified.
- Ensuring that resources are sufficient for satisfying the quality objectives.

It is a requirement of this Policy that every employee, at sea or ashore, be responsible and participate actively in implementing and improving the quality management system to ensure that the Company's activities are conducted with high regard to the community and environment.

Effective Date: 01st September 2014
Revision Number: 04
